# FF SMOKE-PRO
# SMOKE AND HEAT DETECTOR TESTER DEVICE

## FEATURES

▶ Performs functional testing of smoke and heat detectors using a single integrated device
▶ Provides safe and clean testing with environmentally friendly, residue-free smoke fluid
▶ Raises heat detectors to the alarm threshold quickly and in a controlled manner via an electronic heating system
▶ Simulates real operating conditions without causing damage to detectors
▶ Suitable for field use with a lightweight and durable aluminum housing
▶ Enables practical operation at various ceiling heights through modular extension poles

## ORDER DETAILS

▶ FF SMOKE-PRO-Smoke and Heat Detector Tester Device

## TECHNICAL SPECIFICATIONS

| | |
|---|---|
| Standard Length | 2.5 m |
| Maximum Operating Height | 6 m |
| Extension Poles | Modular, aluminum |
| Battery | DC 7.4 V / 2200 mAh |
| Charging Input | DC 8.4 V |
| Charging Current | 1000 mA |
| Smoke Fluid Reservoir Capacity | 3 ml |
| Smoke Generation Type | Residue-free fluid vaporization |
| Heat Test Mechanism | Electronic heating system |
| Housing Material | Aluminum alloy |
| Connecting Poles | Aluminum |
| Detector Test Head | Stainless steel |
| Operating Mode | Handheld / pole-mounted operation |

Fire & Gas Alarm System  •  CCTV System  •  PAVA System  •  Emergency Lighting System  •  Access Control System  •  Integration System  •  Reasure
